

### **AP-700**: pH • ORP • DO • EC • Temp

Supplied with 3m cable fitted to the probe with AquaConn metal connector for connection to the GPS meter. Package contains GPS Aquameter, calibration solution, spare DO membrane cap, DO filling solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter lanyard, screwdriver, calibration / rinse bottle & a hard carry case.

## AP-800: pH • ORP • DO • EC • Turbidity • Temp

Supplied with 3m cable fitted to the probe with AquaConn metal connector for connection to the GPS Aquameter. Package contains GPS Aquameter, calibration solution, spare DO membrane cap, DO filling solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter lanyard, screwdriver, calibration / rinse bottle & a hard carry case.

#### AP-2000: pH • ORP • Optical DO • EC • Temp + 1 ISE port and 1 Optical port

Package contains a 3m cable with AquaConn metal connectors at either end for connection to the Aquaprobe® and GPS Aquameter® GPS Aquameter® calibration solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter® lanyard, screwdriver, calibration / rinse bottle & a rugged carry case.

# AP-2000-D: pH • ORP • Optical DO • EC • Depth • Temp + 1 ISE and 1 Optical port

Package contains a 3m cable with AquaConn metal connectors at either end for connection to the Aquaprobe® and GPS Aquameter®, GPS Aquameter®, calibration solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter® lanyard, screwdriver, calibration / rinse bottle & a rugged carry case.

## AP-5000: pH • ORP • Optical DO • EC • Depth • Temp + 4 Auxiliary ports

Package contains a 3m cable with AquaConn metal connectors at either end for connection to the Aquaprobe® and GPS Aquameter, GPS Aquameter, calibration solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter lanyard, screwdriver, calibration / rinse bottle & a rugged carry case.
